

WHO WE ARE

The Venison Donation Coalition is a sportsman/woman initiated organization established in 2000 to wisely utilize the NYS deer resource to help those in need. We are an independent, incorporated, not for profit organization (501-C3). All contributions to our charitable cause are tax-deductible. Our board of directors has representatives from:

- Organized sportsmen
- NY farm bureau
- NY food banks
- Members at large

Our mission: To transform a renewable natural resource into nutritious food for those less fortunate.

What we do: Coordinate processing and distribution of donated deer to the NYS food banks, Community pantries and Soup Kitchens. We provide free processing of all deer donated to the program.

Where we operate: While our operating office is in Bath, New York, we have 90 venison processors and local helpers in 50 counties throughout New York.

Our track record: We have provided 1,205,427 pounds of venison or 603 tons to families in need averaging 35 tons per year since 1999.

How you can help: Donate cash when you buy your hunting license or online at our secure website: www.venisondonation.org. SEFA Employees can donate through the United Way via a payroll deduction using the code #999-00610.

Why we need your help: To help continue the traditions of hunting and helping others.
